

MANY KANSAS MOTHERS
CAN SAY THE SAME.

Kansas City, Kans.—"I took Doctor Pierce's Favorite Prescription while in a delicate condition and have a fine healthy daughter. I read of this medicine in an advertisement and decided to take it. I am satisfied with it."

"I often take Dr. Pierce's Pleasant Pellets for constipation and biliousness and I think they are splendid for these ailments."—Mrs. CHAS. JONES, 541 Barnett, Ave., Kansas City.

In the expectant period, before the coming of the little one—women need to be possessed of all their natural strength. Instead of being harassed by forebodings and weakened by nausea, sleeplessness, or nervousness, if you will bring to your aid Doctor Pierce's Favorite Prescription you will find that most of the suffering will not make its appearance.

Dr. Pierce's Favorite Prescription is the result of a life study of ailments, disorders and irregularities peculiar to women. Its continued supremacy in its particular field for nearly 50 years is your assurance of the benefit to be derived from its use.

Women who are restless, with constant change of position, "nervousness," who are abnormally excitable or who experience fainting or dizzy spells, or nervous headache and wakefulness are usually sufferers from the weaknesses of their sex.

Neither narcotics nor alcohol will be found in this vegetable prescription, in liquid or tablet form. Sold by druggists or a trial box will be sent you by mail on receipt of 50 cents. Address Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

EASY TO
DARKEN YOUR
GRAY HAIR

Try this! Mix Sage Tea and Sulphur and brush it through your hair, taking one strand at a time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home, is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover that dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.—adv.

RED PEP'S
PHILOSOPHY

"A sweet disposition can't live in the body that carries a sour face. Look in your mirror—and smile."

And speaking of sweet things, the IDEAL is going to offer certain sorts of sweet things Saturday that won't cost much to try. Look them over:

Specials for Saturday

Crisp Peanut Brittle
at 10c lb.

If you have tried this product from our candy kitchen, of course you'll be "among those present" here tomorrow. If you haven't tried it, a dime's worth will make you want more.

**Half Pound Boxes of
40c Chocolates**
for 10c

As long as you can't eat the box, perhaps the boxes won't be very elaborate. But the chocolates will be a treat themselves. Hand dipped, every one.

**Strawberry Ice Cream
or Orange Ice**
at 30c Qt.

sounds pretty good, doesn't it? And we will use real berries and real oranges, too.

Get Out Into the
Open Sunday

Everything you need for the lunch here—even paper plates and napkins.

Take a Gage Park Car Here.

**Ideal Bakery and
Delicatessen**
121 West Sixth

RAILROAD NEWS

Santa Fe Elevator at Argentine
Largest in West.

Contracts Let This Week for
Additional Grain Bins.

CONVENTIONS ON THE COAST
Railways Planning for Many
Specials to Fairs.

**Other Items of General Inter-
est in the Traffic World.**

The new Santa Fe grain elevator near Argentine, Kan., will be completed by August 1. Contract for the remainder of the construction was let this week to the Wells Brothers' company, of Chicago. This elevator, when completed, will be the largest west of the Mississippi river and in storage capacity, one of the largest in the world.

The original buildings, elevator, power and work house, had a total storage capacity of 1,040,500 bushels in the 24 bins. These bins were 25 feet in diameter. The original power house was built by Witherspoon, Englar and company, of Chicago, and the storage bins by C. A. Fellows, former mayor of Topeka. The bins are 80 feet high. The first work was done in 1906.

The second addition to the elevator was constructed in 1913, 48 bins being added, making the storage capacity larger by 1,632,900 bushels. The new addition will have 28 bins, a storage capacity of 2,062,000 bushels, making the total capacity of the elevator August 1, 4,739,400 bushels.

The bins to be constructed this spring and summer will be 36 feet, 10 inches in diameter instead of 25 feet. In order to complete it by the specified time, men will work night and day on the building. For the foundation, 4,240 piles will be driven, giving an average 30 foot foundation. The contract for this has been awarded to the United States Dredge & Dock company of Chicago. The contract for grading has been let to Cameron, Joyce & Company, of Keokuk. For the installation of the machinery, contract has been given to John S. Metcalf company of Chicago. The cost of the work will be in round numbers, \$300,000.

It will be one of the most completely equipped elevators in the country. Every new and successful device will be installed. One of the modern ideas will be put into effect, that is, the temperature of the different bins being recorded in the office. At every few feet of the 80 foot bins, thermometers will give the temperature. In case that some of the bins become overheated, the dial in the office will show it and the grain can be transferred to another bin.

The plans specify underground and overhead carriers. When it is taken out, an arrangement at the bottom of each bin makes it possible for the grain to be carried to the workhouse on underground conveying belts.

In case the Santa Fe railway wishes to enlarge the elevator, it is possible because sufficient space has been left at both sides for new additions. Eventually, the officials believe, more bins will be added to make it the largest on the map. As it stands today, it attracts the attention of the traveling public, as it can be plainly seen from the passenger trains between Argentine and Turner.

ORGANIZED BUSINESS WEST.

Many Conventions To Be Held on Pacific Coast This Year.

The trend of travel this summer is westward. If indications of organized business on different trunk lines is any criterion. The Santa Fe, Rock Island, Union Pacific, Burlington, Northern Pacific, Frisco, the Burlington line that operates to the Pacific coast, have scores of special trains for conventions in California and the northwest this summer.

It is a safe bet to say that there will be more people in the United States familiar with their own country at the close of 1915 than at any other time in its history. The twin attractions in California at the expositions of San Francisco and San Diego and the inaccessibility of Europe for the pleasure-bent traveler, have contributed largely to the unusual number of people going to the Pacific coast this year.

Perhaps the biggest convention on the coast this season is that of the Shriners, at Seattle, July 13 to 15. A large per cent of the special trains to this convention will be carried from Chicago over the Chicago, Milwaukee & St. Paul, the Great Northern, Northern Pacific and the Burlington systems. Most of the Shriners, however, will return by either a southerly route, over the Southern Pacific, Santa Fe, Rock Island, or by the central route, the Union Pacific, Western Pacific and auxiliary routes.

The Santa Fe passenger department in Topeka reports organized business to the following conventions: American Bankers' association, Seattle, September 6 to 13; American Medical association, San Francisco, June 21 to 25; Elks conclave, Los Angeles, July 12 to 17; National Electric Light association, June 8 to 11, at San Francisco; National Editorial association, Los Angeles, June 29 to July 1, and others.

The Rock Island passenger office in Topeka has the lineup of similar business to meetings on the coast. The Hotel and Restaurant Employees' International Alliance and the Bartenders' International League of America have chosen the Burlington, Denver & Rio Grande and Western Pacific as the official route to their nineteenth biennial convention at San Francisco in June.

And while there is a rush of organized business to the coast, a plenty of unorganized tourist business, little has been said of the great army of unemployed who will march to the coast next year. Hundreds of care-free and happy hoboes intend to take in the sights of the fair, although no official route has been selected by them. They intend, however, to take freight cars whenever possible, although they may expect uncourteous treatment at the hands of train crews. And when freight trains are not easily available, this outfit of "Weary Willies" will informally go to California on foot. Section foremen for the Rock Island and Santa Fe report that large numbers are passing through Kansas at the present time.

M. P. Changas.

The official circular of the Missouri Pacific traffic changes, announced at the reorganization several weeks ago, has been received in Topeka. The changes are: J. M. Johnson, vice

president of the Missouri Pacific and D. & R. G., office changed from St. Louis to Chicago; W. A. Rambach, assistant to vice president, made assistant freight traffic manager at St. Louis; J. N. Githens, assistant to Mr. Johnson, given same position in Chicago; W. I. Jones, made general freight agent, Iron Mountain; C. C. P. Rausch, general freight agent, St. Louis; D. R. Lincoln, assistant general freight agent, transferred from Kansas City to St. Louis, and W. H. Alexander has been made assistant general freight agent at Kansas City.

Colorado Is Expectant.

Colorado is expecting a heavy tourist business this summer, according to J. A. Stewart, of Topeka, general pas-

senger agent of the Rock Island Lines. Mr. Stewart has just returned from a trip to that state and believes that assistant to vice president, made assistant freight traffic manager at St. Louis; J. N. Githens, assistant to Mr. Johnson, given same position in Chicago; W. I. Jones, made general freight agent, Iron Mountain; C. C. P. Rausch, general freight agent, St. Louis; D. R. Lincoln, assistant general freight agent, transferred from Kansas City to St. Louis, and W. H. Alexander has been made assistant general freight agent at Kansas City.

RAILWAY NOTES.

C. E. Shaff, president of the Missouri, Kansas & Texas railroad, is authority for the statement, according to a dispatch, that the \$13,000,000

note issue of the road, due today, has been raised in New York.

H. U. Mudge, receiver of the Chicago, Rock Island & Pacific railway, is in Chicago where he and Receiver Dickinson are holding a conference. Reports that he is on an inspection trip of the Kansas lines are not founded on facts.

As a result of canvass of railroads operating 100,000 miles of road, an eastern railway expert learns that those roads are planning expenditures this year of \$50,000,000 for betterments, renewals and new equipment. This included Pennsylvania's \$23,000,000.
